See our NEW price sheet for low-income families

This is the lowest price we have ever offered for a computer with a LCD monitor - just **\$85.00**. Take a look at our most popular computers and prices for **low-income, qualifying families**. Our license agreement with Microsoft only allows us to sell to those families that cannot afford to buy one.

Check out our new [price sheet](#) today!

High speed internet for \$10 a month.

Computers for Classrooms will be assisting families that have a child in the **FREE or REDUCED lunch program** through their school to obtain low cost broadband Internet if they live in a Comcast cable community. To qualify for the program families need to have at least one child in the free or reduced price lunch program, they cannot owe Comcast money or equipment and they cannot have had Comcast Internet for 90 days. Call to sign up for the program. The cost will be \$9.95 per month plus tax but there will be no setup fees, no credit check, no social security check and a free modem and installation.

Call Computers for Classrooms to help you get started.
